**BELTAPE MAKES YOUR LIFE EASIER!**

**belTape**

## Simple opening Effegidi proposal.

**Easy-open** packaging is the key to successful items for the market of flexible packaging. As an example, **processed cheese single portion**: a consumer-friendly product that the market requests to open without getting your hands dirty.

With **Beltape**, Effegidi International meets this need. With our processes of flexo printing, lacquer, laminating and slitting in pads or spools, we offer the opportunity to customize the tape following Iso 9000 and BRC/IoP regulations. Our final product is compliant to its usage, both in terms of performance and in line with the regulations in place.

We have always believed in the close cooperation with our customers, to be a **partner** first.

Beltape can be used in several areas of leading and technical packaging. It is used in **packaging for single portion cheese, processed cheese slices, tobacco, wine caps, snacks, chocolate**. Each of them having specific features, but with a common basis that gives the following **advantages**:

ADVANTAGES	EFFEGIDI SYSTEM
Layer adhesion	Usage of primer and adhesive
Excellent processing features	Cooperation with machine producers
Product stability	Hard GMP
Colour fastness	Excellent gripping primer and ink enclosed in a "sandwich" construction
Low temperature application	Constant seek of lacquers
Longer durability of blades	Careful choice of materials
Reduction of production costs	Tailor-made structures with sqm yield increase
Other Effegidi strength points	✓ Customized pad widths
	✓ Flexibility on production batches
	✓ Specific technical documentation upon customer request

# SOME PROPOSALS

Thanks to our long expertise on printing and laminating flexible materials and our ongoing cooperation with packaging machine producers, Effegidi supplies **several tear-off tapes**. Our processes:

- ✓ flexo printing
- ✓ lacquering
- ✓ lamination
- ✓ slitting and winding in pads or spools

## EFFEGIDI SELECTION

### PRESTIGE

**Bi-metallized Pet**  
Double - layer coating, for an uncompromisingly high quality

### STANDARD PLUS

**Mono-metallized Pet**  
Flexible solution, beyond the standards.

### STRONG

**Pet/Pet**  
Excellent mechanical performance for improved resistance.

### STANDARD

**BOPP/BOPP**  
The most widespread solution in the market: simple, reliable, cost-saving.

### ECONOMY

**Single layer**  
Cost saving solution, without losing the full functionality.

### FOR ALL OUR PROPOSALS

Banded or solid colouring, different colours and thicknesses are available.

## GREEN SOLUTIONS

Effegidi is engaged in **seeking green solutions** to support a conscious and responsible consumption of plastics, together with recycling opportunities and compostable solutions.

It is clear that our tapes represent a minimal element inside packaging and do not play a fundamental role, but we think that every single little effort can raise awareness for a global problem.

This is the reason why using **compostable materials**, such as PLA, Cellophane, PBS, PBSA and in particular heat-sealable lacquers and water-based halogen-free colours, is our everyday challenge.
